Dear Sir

Summary of Valuation Report Property – “Merriment Aggregation” Various Addresses Via Forbes NSW 2871

INSTRUCTIONS

CBRE Valuations Pty Limited (“CBRE”) accepted instructions dated 17 April 2018 to prepare a Fair Value Valuation for the interest in the property listed above. The Valuation is to be relied upon for Financial Reporting purposes only and is specifically addressed for use and reliance upon, by the party named above. The Valuation is prepared in accordance with the Australian Property Institute Australia and New Zealand Valuation and Property Standards, having regard to ANZVGN 8 Valuations. The instructions specifically request us to provide our opinion of the Fair Value for financial reporting as at 14 June 2018 of the holding which CBRE undertook as at 10 and 11 May 2018 on the following basis:

1. Fair Value for Financial Reporting purposes only.
In assessing the valuation on this basis we have also had regard to the requirements of the Australian Accounting Standards Board. In particular, we have considered AASB13 Fair Value Measurement, which adopts the following definition of Fair Value:
 - *“Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.”*
 - *The fair value of a non-financial asset is based on its highest and best use to market participants.*

CBRE has been instructed to provide a full Valuation Report in addition to this Summary Letter. In accordance with ANZVGN 8, our Valuation Report draws attention to the key issues and considerations impacting value and the report details our Critical Assumptions, General Assumptions, Disclaimers, Limitations, Qualifications and Recommendations. As commercial investments of this nature are inherently complex and the market conditions have changed and/or have been uncertain in recent times, it is considered prudent to consider the entire contents of our Valuation Report. Therefore, we recommend that this Summary Letter be read and considered together with the Valuation Report. We accept no responsibility for reliance upon the Summary Letter. We refer the reader to Duxton Broadacre Farms Limited to obtain a copy of our Valuation Report.

BRIEF DESCRIPTION OF THE PROPERTY

“Merriment Aggregation” is a large scale mixed farming aggregation situated in close proximity to Forbes in the Central West region of New South Wales.

The aggregation comprises three non-contiguous holdings, which are known as “Walla Wallah”, “Cowaribin” and “Merriment”.

The aggregation currently supports a mixed irrigated and dryland cropping/grazing enterprise. The irrigated land primarily focuses on the production of cereal, canola, cotton and fodder crops. The grazing component supports a prime lamb and cattle grazing enterprise.

“Merriment Aggregation” features a total area of approximately 2,934 hectares which includes 498 hectares developed to irrigated row cropping, 1,024 hectares of land developed to flood irrigation and 1,277 hectares of dryland cropping / grazing land. The balance of land, 135 hectares, is remnant vegetation and timbered grazing land.

The aggregation features access to three separate irrigation water sources being, Upper Lachlan Groundwater aquifer, Lachlan Regulated River and Jemalong Irrigation Limited. We do however note that some of the aggregation’s water entitlements are subject to a long term lease-back arrangement and not included in this valuation – refer to critical assumptions.

Structures include numerous dwellings, extensive rural shedding and grain storage facilities.

A summary of the holding is provided below:

SUMMARY		
Property Name	Property Address	Area (ha)
"Walla Wallah"	1372 Lachlan Valley Way, Jemalong NSW	1,459.52
"Cowaribin"	Lachlan Valley Way, Warroo NSW	939.83
"Merriment"	346 Willawang Road, Warroo NSW	534.70
Total		2,934.05

MARKET MOVEMENT

The holding is valued for financial reporting as at 14 June 2018, while our inspection of the holding was on 10 May 2018 and 11 May 2018. We have assumed that the land and buildings and real estate market conditions remain unchanged between the date of inspection and the date of valuation. The value assessed may change significantly and unexpectedly over a relatively short period of time (including as a result of general market movements or factors specific to the particular property or particular property sector). CBRE is not liable for losses arising from any subsequent changes in value.

CRITICAL ASSUMPTIONS AND RELIANCE ON INFORMATION PROVIDED

A summary of select Critical Assumptions noted in the full Valuation Report are noted as follows:

Title	The land is not subject to any encroachments or restrictions on title.
Identification	<p>All structures have been erected within the title boundaries of the site and there are no encroachments on or by the subject land.</p> <p>We note that in regard to rural properties, it is common for fencing to encroach either way between boundaries. Given that it is not practical to verify the status of boundaries due to the sheer size and scale of rural properties, we assume there to be no impact on productivity, marketability, or value.</p>
Roads	The aggregation is unaffected by any road alteration proposals.
Approvals/Permits	All Council approvals and permits have been obtained for the existing development.
Accuracy of Information	<p>In assessing this valuation, we have been provided with information by the Reliant Party.</p> <p>We advise that any objective information, data or calculations set out in the Valuation will be accurate so far as is reasonably expected from a qualified and experienced valuer, reflecting due skill, care and diligence. However, we have not independently verified third party information, adopted it as our own, or accepted its reliability. If any of the information provided by others and referred to in the valuation report is incorrect, it may have an impact on the valuation. The valuation is provided on the proviso that the reliant party accepts this risk.</p>
Land Class Apportionment	<p>In an effort to apportion the correct land classes across the aggregation, we have relied upon information provided by the Reliant Party in obtaining the appropriate areas. We have reconciled the areas provided by the Reliant Party via Google Earth Pro Mapping Software where possible.</p> <p>If any of the information is found to be incorrect, we reserve the right to review the valuation.</p>
Water Access	<p>We have been advised that the Jemalong Irrigation Limited surface water utilised on the “Cowaribin” and “Merriment” properties and Lachlan Regulated River General Security irrigation water on “Walla Wallah” is currently subject to a sale and lease back agreement and as such is not to be included in this valuation.</p> <p>We have therefore requested the reliant party to confirm legal access of surface water to these properties.</p> <p>With respect to leased water held in Jemalong Irrigation Limited, we have requested confirmation as to whether the Water Share is separately leased to the Delivery Entitlement component of the Water Certificate. We have been advised by the reliant party that the irrigation water leases have been structured via Term Transfer thus allowing the properties to have legal access to water from Jemalong Irrigation Limited.</p> <p>It is an express assumption that the abovementioned is true and correct, should this be found incorrect we reserve the right to review our report.</p>
Water Lease	<p>As previously mentioned, a portion of the aggregation’s water entitlements are subject to a long term lease-back arrangement and not included in this valuation. These water entitlements are however utilised on the properties. A summary of these entitlements is provided below.</p>

Certificate No / WAL	Property	Volume (MI)	Holding Ref	Category	Source
Certificate No. 421	"Merriment"	1,688	J25C	General Security	Jemalong Irrigation Limited
Certificate No. 422	"Cowaribin"	450	J24F	General Security	Jemalong Irrigation Limited
Certificate No. 423	"Cowaribin"	165	J24B	General Security	Jemalong Irrigation Limited
Certificate No. 424	"Cowaribin"	605	J24E	General Security	Jemalong Irrigation Limited
WAL1995	"Walla Wallah"	4,138	N/A	General Security	Lachlan Regulated River

Groundwater & Quality	<p>We have been advised that the irrigation groundwater quality varies throughout the aggregation; however we have not sighted any water tests.</p> <p>“Walla Wallah” has been advised as having suitable groundwater quality for cropping irrigation purposes. It is an express assumption that the verbal advice given is correct. We do however recommend that the reliant party seek to confirm suitability by undertaking an appropriate water test. Noting the aforementioned we have been provided with dated water tests which confirm the verbal advice received during inspection.</p>
----------------------------------	--

With respect to “Merriment” we have been advised that the irrigation groundwater quality is poor and requires “shandyng” with surface water prior to application. It is an express assumption that irrigation water has been appropriately “shandied” in the past and that the soil quality is unaffected. We do however recommend that the reliant party seek to verify this via undertaking appropriate soil tests.

Irrigation Infrastructure: Via information obtained and through our property inspection, we have been advised/consider that the irrigation infrastructure is in adequate working order. Therefore for the purpose of this valuation we have assumed that all pumps and irrigation infrastructure are in sound working order.

All irrigation equipment including irrigators and pumps are included in the valuation and capitalised into the associated land value.

Certificates of Title We have not been provided with current Certificates of Title and associated Plan searches, as such we have relied upon title searches provided by the client dated March 2017.

It is an express assumption that associated Certificates of Title and associated plan searches have not been adversely impacted by any encumbrances / registrations that have occurred since the search date.

We reserve the right to review the valuation if any of the information provided is found to be incorrect.

Market Movement This valuation is current as at the date of valuation only. The value assessed herein may change significantly and unexpectedly over a relatively short period (including as a result of general market movements or factors specific to the particular water entitlement). We do not accept liability for losses arising from such subsequent changes in value. Without limiting the generality of the above comment, we do not assume any responsibility or accept any liability where this valuation is relied upon after the expiration of 90 days from the date of the valuation, or such earlier date if you become aware of any factors that have any effect on the valuation. However, it should be recognised that the 90 day reliance period does not guarantee the value for that period; it always remains a valuation at the date of valuation only.

Financial Reporting That there will be no material change in the property market or the property between the date of inspection and the date of valuation.

We have relied upon information provided by Duxton Broadacre Farms Limited.

Our valuation is based upon the most current information available at the time the valuation was prepared. CBRE accepts no responsibility for subsequent changes in information as to market conditions.

In the current market, it is our view that a 6-9 month marketing period may be required to effect a disposal of the interest in the asset assuming a professional marketing campaign.

REPORT CONTENT

Our Valuation Report, in addition to the content noted earlier, contains detailed information and description pertaining to: Instructions; Use and Reliance; Site Details including Location, Legal, Environmental and Town Planning; and Building Improvements. This is followed by a comprehensive Agriculture and Water Market Overview and details of the sales evidence regarded. Finally, the report considers the value and marketability of the property. We again refer the reader of this letter to our Valuation Report for detail in respect of the above items.

VALUATION METHODOLOGY

In arriving at our opinion of market value in accordance with the instructions, we have placed primary emphasis on the Direct Comparison approach.
